Hello!

We at Hit-Thing Music have just released the latest single from ***The Fraed*** and we would like to take this opportunity to suggest ***Just Another Depression*** for your programme.

***Just Another Depression*** is a tongue-in-cheek lament about the things in life that don't work out as expected, wrapped up in a catchy song, stylistically somewhere between pop and indie.

We hope you enjoy the song and add it to your rotation (if so, we would be grateful for a quick message, so we can promote you on our social media channels!).

We are always available for questions and suggestions – please do not hesitate to contact us, we appreciate all feedback and look forward to continuing to support you with great music!

Best regards from Vienna,

**Mag. Alf Weingartner**

### ***About The Artist***

***The Fraed*** is a musician from Vienna, Austria. He began singing in the local church choir as a child, later receiving classical music training (flute, double bass), but later switched to jazz and rock – and has never looked back... He plays numerous instruments and has basically been making music of various styles his entire life: from baroque to free jazz – he even played in an ensemble for traditional austrian alpine folk music, the 'Thalheimer Stub'nmusi'.

Later, he played in several local bands and projects in Vienna (*The Continental Change*, *Art Game Rhythm Tube*, *Meet The Beat*, etc.), worked as a studio musician for several years and toured half of Europe. A few years ago,

he started his solo project under his stage name ***The Fraed*** in order to realise his musical ideas without compromise.

Most of the instruments and vocals on this track were recorded and produced by ***The Fraed*** himself:

*"I want to record the material I love, no matter how long it takes – and sometimes it takes an incredibly long time before I'm satisfied. A nightmare for any producer who has budgets and deadlines in mind. But I don't accept half measures when it comes to producing my music. I do my best and am grateful for any help – but I also insist on controlling the entire process: from songwriting to recording to release. That slows everything down, but art needs time to mature, and I need time to develop."*

He is currently working on his next CD, '**Raw**', which will be released in the summer of 2026.

### **About The Song**

*'I can't help it – I just do what the song demands. And in **Just Another Depression**, there was a little jazz on the Hammond organ, a classical piano in between, and above it all floats a sweet mariachi theme with violins and trumpets. I call it "pop".'*

**Just Another Depression** is about real life, where appearance and reality often diverge — just as the music and lyrics do in a sophisticated way in this song:

*„A song you share with the world and then no one wants to hear, the great love that has no interest. All the plans that vanish into thin air, the dreams that go down the drain. Flying high and falling flat on your face – who hasn't been there?“*

For fate deals the cards as it sees fit, and you have to improvise to make ends meet and get a piece of the pie. And if there's one lesson to be learned, it's that you never get what you deserve.

*„.... someone else is rolling the dice, I was forced to improvise, to get along, to get my share...“.*
